Of This Amount, $25,460,991 Is for Work on the Panama Canal—$80,000 for Continuing Construction of the Atlanta Federal Prison.

Washington, May 30.—The sundry appropriation bill was completed and Chairman Tawney was authorized by the appropriations committee to report it to the house Tuesday.

It was the largest sundry bill ever reported, carrying $94,346,573, of which $25,460,991 is for work on the Panama canal. The amount carried is $11,070,003 less than the estimates from the various departments. The canal appropriation is to be reimbursed to the treasury from the proceeds of the sale of the canal bonds which have been authorized to the aggregate amount of $130,000,000.

Deducting the canal appropriation, the bill carries $1,721,989 more than the current sundry civil act.

For river and harbor work, heretofore authorized and contracted for, there is appropriated $17,318,967, which is $6,774,844 in excess of the amount available this year. For new public buildings, heretofore authorized and the repair of buildings, $5,179,583 is appropriated, a reduction of $2,806,601 from the current appropriation under this head.

Among the items of appropriations for the canal are:

Pay officers and employes on the isthmus, other than skilled and unskilled laborers, $3,328,088. Skilled labor on the isthmus, $5,593,920. Unskilled labor on the isthmus, $4,148,159.

Purchase and delivery of supplies and equipment on the isthmus, $10,574,511. Loan to the Panama railroad for new equipment, $1,000,000.

Printing reform is inaugurated by requirements that no money appropriated in the bill shall be used to maintain branch printing offices outside of Washington.

For the appointment is provided for by the attorney general, if the secretary of the treasury desires, of a solicitor of customs at an annual salary of $5,000, and such assistant solicitors as are necessary at salaries of $3,000.

Some of the more important items of appropriation are:

Construction of vessels under revenue cutter service, $27,000, increase of $170,000. Construction of national museum building at Washington, D. C., $500,000. For the interstate commerce commission $375,000, an increase of $10,000. This increase is to be the fund of $75,000 to enable the commission to keep informed regarding compliance with the act to promote the safety of employes and travelers on railroads.

In addition to the regular fund of $249,000 for general expenses, there is transferred $150,000 from the so-called anti-trust fund under the department of justice to further enable the commission to carry out the interstate commerce acts.

Public health and marine hospital service $1,185,000. Quarantine service $340,000.

Prevention of epidemics $216,000 which includes an unexpended balance of about $116,000.

Bureau of fisheries, $670,970, reduction of $14,950.

For enforcement of the Chinese exclusion act the appropriation is reduced from $600,000 to $500,000.

Construction of the office building for the house of representatives, $500,000. United States geological survey $1,138,320, reduction of $346,100. MOON AND MATRON DISCHARGED

Both Were Found Guilty on a Single Charge.

Atlanta, May 30.—After one of the longest and most sensational hearings in the history of the police board, Captain Z. B. Moon and Police Matron Mary Bohnefeld were Monday night ordered dismissed from the force.

Of the eleven specifications filed against him by Mrs. Bohnefeld, Captain Moon was exonerated of all but one charge.

Following an executive session of nearly four hours it was unanimously agreed at 11:30 o'clock that Captain Z. B. Moon be found guilty of conduct unbecoming an officer and member of the force in causing the publication in the papers on April 26, 1906 the article complained of in the pending charges against him.

Mrs. Bohnefeld escaped all charges against her save a portion of specification, No. 8, relative to the use of improper language upon several occasions. The motion dismissing her from the force was also adopted by a unanimous vote.

Girl Attempts Suicide.

Atlanta, May 30.—With the hallucination, brought on by overwork and overtaxed nerves, that the destiny of the world rested upon her and she was unable to bear the burden, Miss Rosa Holmes, private secretary to Dr. Len G. Broughton, pastor of the Baptist Tabernacle, attempted to end her life in Lake Abana, at Grant Park, Monday. She was seen sitting on the bank of the lake, near the boat house, several minutes when she suddenly arose and jumped into the water. The screams of several negroes who saw the act, brought Superintendent Myers and some of his hands to the lake and they drew the limp body of Miss Holmes from the water.

Farmer Hangs Himself.

Seneca, S. C., May 30.—Henry Hesse, a well-to-do farmer, who lives 8 miles west of here, committed suicide Tuesday morning by hanging himself with a wire rope. The cause is unknown, but it is stated that he has been crazed for some time from the effects of drink. He was about 50 years of age, and leaves a widow and several children.

Named by President.

Washington, May 30.—The president sent to the senate Tuesday the nomination of John W. Vann, to be collector of customs for the district of Brazos de Santiago, Tex.

Convention Adopted Strong Resolutions Favoring Immigration and a Committee Will Prepare Bill to Establish Bureau for the State.

Augusta, Ga., May 30.—Prominent men from every section of the state gathered here to discuss the immigration situation and the south's attitude thereto at the invitation of the chamber of commerce. About 50 were present.

After hearing from all the following resolution was passed:

"This convention, profoundly convinced of the importance of indorsing a scheme of immigration and of commending it to the entire state, heartily approves of the action looking to the formation of an immigration bureau by the state, and earnestly commends the subject to all industrial and commercial bodies and urgently solicits their co-operation."

It was further resolved to appoint one delegate from each of the bodies represented at the meeting to formulate a suitable bill to be presented to the next legislature.

Indicted for Murder.

Middlesboro, Ky., May 30.—C. D. Ball and his son, W. Patton Ball, saloon men of this city, have been indicted by the grand jury at Pineville for the murder of Meade Cottell. Cottell was killed in the summer of 1900 at the "Little Gem" saloon, then owned and operated by C. D. Ball. Collins Ball, brother of C. D. Ball, was indicted for the killing and died shortly afterward. C. D. Ball is a brother of Frank Ball, the slayer of Jack Bolen, and a member of the city council.

Report Is Submitted.

Richmond, Va., May 30.—The committee on church extension submitted its report to the United Presbyterian general assembly today. It shows an increasing demand for help and declares there is an open door for greater work. Aid given during the year aggregated to $146,317. In the report on home missions, it is shown that the expenditures of last year amounted to $119,569. There is a deficite of $27,123, and for the preceding year, one of $11,73s. The committee asks an appropriation of $135,000.

Interview Was Satsifactory.

Pekin, May 30.—In consequence of the vagueness of China's reply to the second note to Great Britain on the customs question, the British charge d'affaires, Mr. Carnegie, paid a personal visit to the foreign board Monday. He considered the interview satisfactory, and Tuesday he sent notes to the other legations informing them of the results attained and adding that he expected to receive satisfactory written assurances soon.

Home Made Liquor.

New Orleans, La., May 30.—R. L. Beasley, a Nashville traveling salesman for a New Orleans house, struck Laurel, Miss., a dry town, with a thirst and he went in search of a drink, and from a friend secured some "home made" liquor. He died during the night, and four other men who drank from the bottle were rendered unconscious.

Killed in Tunnel.

Covington, Ky., May 30.—Gus Menzinger has received a telegram from Chief of Police Henry Jennings, of Atlanta, Ga., stating he could not locate the relatives of Bert Jones. Jones was killed in the L. & N. tunnel by a train. The body will be buried in the potters' field.

Shoe Manufacturers Fail.

Lynn, Mass., May 30.—William Porter & Son, one of the oldest shoe manufacturing firms in the city, assigned Monday with liabilities estimated at about $100,000. It is said the high price of leather and restricted credit caused the assignment.

COLOR LINE CASE IN COURT.

Federal Tribunal Decides it Has No Jurisdiction.

Washington, May 30.—The case of Rueben Hodges and others v. the United States was decided by the supreme court of the United States on Monday, which refused to take jurisdiction in the matter. The decision was announced by Justice Brewer, but owing to the fact that the dissenting opinion in the case was not ready for filing, the controlling opinion was withheld.

Hodges and a number of associates were tried in the United States district court for the eastern district of Arkansas on the charge of intimidating a number of negro laborers, who had contracted to work for a lumbering firm in Poinsette county, in that state, to the end of compelling them to give up the undertaking.

The proceeding was instituted on the theory that the men were being persecuted on account of their color and was in violation of sections 1977, 1978 and 3508 of the revised statutes.

The defendants were found guilty and sentenced to imprisonment for a year. They attacked the law as unconstitutional and also urged the want of jurisdiction on the part of the federal courts. The court held that the punishment of such wrongs as were charged is not committed to congress by the thirteenth amendment, prohibiting slavery and involuntary servitude, but must be sought in the tribunals of the state.

Justices Harlan and Day dissented.

Resigns as Trustee.

Chicago, May 30.—A dispatch to a morning paper from Jacksonville, Ill., says that Judge Owen Thompson of the Seventh Illinois circuit in a letter to President Parker, of the Illinois Woman's college resigned as a member of the board of trustees, giving as his reason the acceptance of the Carnegie offer of $25,000 conditional on the college raising $7,500 additional. His letter discusses at length the policy of accepting gifts from "tainted sources," and takes positive grounds against accepting money from such men as Carnegie and Rockefeller. Judge Thompson's resignation was accepted.

Will be Own Lawyer.

Montgomery, Ala., May 30.—Mrs. Rebecca Prickett, who has sued her husband, Luther Prickett, for alimony, will argue her own case before the supreme court. She was her own lawyer in the case below and failed, but nothing daunted, is going to keep up the fight. She is a determined young woman who contends that she helped make money to buy property now held by the husband and is entitled to support from it.

Peach Crop Will be Large.

Augusta, Ga., May 30.—Information received from the general offices of the Central of Georgia railway indicates that the company expects to handle the biggest peach crop in its history. Officials said that orders have been placed with the refrigerator car lines for 3,000 cars, and 1,500 of these have already been delivered to the Central and are now being distributed along its line in the fruit growing centers.

Robbers Loot Safe.

Jesup, Ga., May 30.—Two safes were blown open and robbed Sunday night at Odum, ten miles north of this city. J. Carter and company lost about $500. W. W. O'Quinn lost about $75. One hundred and forty dollars were taken from the safe of Carter belonging to the postoffice. No burglar insurance was carried by either of those who suffered loss, nor is there any clue by which the robber may be traced.

Is Invention of Georgian.

Macon, Ga., May 30.—F. Henry Thorne, of Macon, Ga., has devised and patented a new frogless railroad switch which is said to be a great improvement over the old method. The new switch discards the frog and does not break the main line but gives a clean main line all the time.

Snow Storm in Colorado.

Baker City, Colo., May 30.—One of the worst blizzards in years raged around Baker City Monday. Three inches of snow has fallen and the weather is cold.

SEVENTY ZULUS ARE KILLED IN BATTLE

British Loss Was One Killed and Three Wounded.

FIGHTING LASTED TWO HOURS

Six Hundred Rebel Zulus Surround and Fire Upon British Soldiers with Disastrous Results to the Rebels, Who Fled from Field of Battle.

Durban, Natal, May 30.—Six hundred rebel zulus surrounded and attacked Colonel Leuchar's force near Buffalo river. Under cover of the bush the natives got within 50 yards of the British, but the latter opened a heavy rifle fire on the rebels and after two hours fighting, the Zulus fled, leaving 70 killed. The British loss was one man killed and three wounded.

STATE CONVENTION MEETS.

Will Nominate Governor For State of Tennessee.

Nashville, May 30.—The Democratic state convention met here Tuesday in Ryman hall, the state capital building auditorium being far too little to accommodate the convention, which is the largest ever held in this state.

The campaign just closed for the nomination for governor, was one of the hottest in this state in many years.

Hon. John I. Cox, who succeeded to the governorship on the election of Governor Frazier to the United States senatorship, stands for re-election, and is opposed by Hon. H. M. Patterson, son of the late Hon. Josiah Patterson, and who at present represents the tenth district in congress, and Judge John R. Bond, a leading jurist of this state.

The race looks to be between Cox and Patterson, although there is much talk of a dark horse.

It is practically certain that the Republicans will nominate Hon. H. Clay Evans as their standard bearer. Mr. Evans is probably the strongest Republican in the state, and this fact adds interest to the action of the Democratic convention in session here.

The convention was called to order by Vice President Abernathy and at once proceeded to a temporary organization.

Glitter and Pomp for Royal Wedding.

Madrid, May 30.—The arrival Tuesday of the foreign princes and envoys adds to the glitter and pomp with which this city is invested for the royal wedding. The American, Italian and Portuguese delegations were among the earliest arrivals, while princes, archdukes, and grand dukes representing the reigning houses of Europe with dazzling retinues arrived continuously during the afternoon. Mr. Whiteridge, the American envoy, accompanied by his family and his military and naval staff reached Madrid after a slight accident to his train. Mr. Whiteridge was heartily gratified at the splendid quarters assigned to him in the Pino Hermoso palace, regarding it as a manifestation of Spain's cordiality to the United States.

Terranova Trial Proceeds.

New York, May 30.—The trial of Josephine Terranova, charged with the murder of her aunt, Mrs. Concetta Reggia, which had been suspended for several days pending the investigation of her sanity, was resumed today before Justice Scott in the supreme court. The commission appointed to ascertain whether Miss Terranova was insane, reported to the court that while the girl formerly had hallucinations regarding her action in killing her uncle and aunt, and still has them, she is able to consult and advise with her lawyers during the remaining stages of the trial. As such a commission satisfied the requirements of the law, the trial proceeded.

Final Adjournment This Week.

Memphis, Tenn., May 30.—Committee reports occupied the time of the Brotherhood of Locomotive Engineers Tuesday. Many delegates have left the city, and it is believed final adjournment will be taken some time this week.

SPECIAL TERM OF COURT WAS RESUMED ON WEDNESDAY

Special Grand Jury Was Empanelled and Charge Read.

CHARGE A LENGTHY ONE

Judge Wills Covered Many Fine Points And Desired to Impress Upon the Jury the Importance of Many Points to be Considered.

The special term of the circuit court, Eighth Judicial Circuit of Florida, in and for Alachua county, which was called by His Honor Judge Wills on Monday afternoon and adjourned until 10 o'clock Wednesday morning, was called promptly at the hour, when Sheriff Fennell returned the venire of thirty, among whom was to be selected, eighteen to serve on the special grand jury.

The following gentlemen were selected, and after retiring and electing as foreman Geo. W. Hyde, the Judge delivered his charge:

Geo. W. Hyde, W. N. Wilson, T. M. Kincaid, C. W. Baukright, C. A. Williams, J. T. Mizelle, L. C. Gracy, A. M. Cushman, J. M. Spivey, H. L. Phifer, C. D. Wood, W. H. Tucker, John G. White, P. Y. Smith, E. Baird, W. L. Hill, B. W. Waite, B. F. Hampton.

The Judge's Charge.

The charge of Judge Wills was a lengthy one, and full of interest and eloquence. It covered nine pages of foolscap, typewritten, and required nearly three-quarters of an hour in delivery. It was, however, one of the most masterly efforts of the kind ever heard on the Alachua county bench, and in part was as follows:

Gentlemen: You have now been selected, sworn and empanelled as grand jurors for the present term of this court. This is a special term of court, called by myself as your presiding judge, because of representation of certain matters made to me. In my opinion, the public welfare and the cause of justice in Alachua county required of me that a special term of this court be held. * * *

During the last session of this court, which has just ended, there were rumors upon your streets, of attempts to corruptly influence the grand jury then in session, by parties upon the outside. These rumors grew from day to day, until they were common talk upon your streets; they reached the ears of the officers of this court, and were brought to my attention by parties who claimed that they were in a position to give evidence, if they could give that evidence frankly and freely to the grand jury—of attempts that had been made to influence the grand jury in their deliberation upon a certain cause, or causes, then pending before that body. When these facts, coming from the sources which they did, came to my knowledge, then, I felt charged with the responsibility of presiding over this circuit that embraces over seventy thousand people within its limits, and I, as the presiding judge, charged with the responsibility of enforcing the law and order throughout the circuit, that an attempt was made, not only that reflected upon Alachua county, but an attempt, if successfully carried out and allowed to prevail in the counties of the State, would make the administration of the law a farce and a travesty upon justice.

And it is for this purpose that I have called this special term of the court, not for the purpose of having this grand jury to review the actions, or to act as an appellate court over the last grand jury; but to investigate the facts, as to whether there was any attempt to corruptly influence the last grand jury.

It is a duty that you owe to the last grand jury, to fearlessly and impartially investigate this matter—as to whether any attempt was made to influence, and whether any member of their body was influenced or not. * * *

You have here a county in its material resources and in the variety of those resources it is unsurpassed by any county in the State of Florida.

Your city is a city which stands high in the estimation of the people of this State; Gainesville is noted for the high moral, public sentiment that prevails here. You have a progressive spirit among your people for the building of good roads and the general advancement of your county and the cause of education; but you may accomplish all of these ends, and carry them to the highest degree of perfection, but without the enforcement of law and order in your county, Alachua county in all of her natural resources, with all of her progressive spirit, in all that tends to advance the true and good, will be a failure, because without the enforcement of the law and order in a county, life and property are insecure and unsafe, and no man is protected.

Therefore, feeling that the public welfare of this county was involved in this charge, I called you as citizens of your county, as the grand jury, with unlimited power to send for witnesses, to make a full and thorough investigation of these charges that have been made. * * *

Now, what I have said to you—I do not mean to intimate to you as to the strength of the evidence that is to come before your body. As to what evidence you will have before you, I know not: that is a matter for you to determine. It is for you to determine from the evidence that shall be adduced before your body, not whether the party is guilty beyond a reasonable doubt or not, but whether from the evidence direct or circumstantial that is put before your body, you believe that there was an attempt to corruptly influence the mind of any grand juror at the last term of this court; and you believe that there was, although the evidence before you may be only evidence on behalf of the prosecution, then it would be your sworn duty to return an indictment into this court, and upon that indictment a capias will issue, and the offender be brought before the court, and an opportunity given him to explain away the criminality of the act, or to contradict the evidence. * * *

Neither has a party the right, who is under investigation by the grand jury, to appear before your body, either in person, or by counsel, or to produce witnesses before you. But it is his privilege when he is brought into this court for final trial, to be confronted by the witnesses against him, and to have the benefit of counsel.

While it is a crime to attempt to corrupt a juror at common law, still at common law the crime was known as a misdemeanor, punishable only by imprisonment in the county jail or by fine, but Legislature of the State of Florida has seen fit to raise it from a misdemeanor and make it a felony, punisheable by imprisonment in the State prison.

(At this point of the charge, Judge Wills quoted the law on the subject, providing the fines and penalties of any person attempting to corrupt jurors or officials coming under its head).

The court instructs you, gentlemen, that it is not necessary in order to constitute this offense that the jurors should have been corruptly influenced, but the intent to corruptly influence the jurors is the essence of the crime. * * *

I wish to call your attention to the acts and conduct of jurors during the term of this court. Jurors should so conduct themselves so as to cause no comment to be made upon their acts during the term of the court. You and each of you are judges in one sense of the word. While I sit as judge of the law, you gentlemen sit, each and every one of you, as judges of the facts; and you are the most important part of the court.

The State Attorney is made by law your legal advisor, and he will assist you at such times as you may desire his services in the examination of witnesses, in explaining to you the law, or the pertinency of the evidence, or any other matter before you; and he will be with you at all times that you may wish him, except when you go to vote as to whether you will or will not find a true bill. * * *

Now, grand jurors frequently make some remark upon the streets or in speaking to each other as to something that has occurred in the grand jury room, and unintentionally let out a secret of the grand jury. Therefore, the better and only plan for grand jurors to keep the secrets of the grand jury, is to transact and hold all of their conversations concerning the grand jury work purely in the grand jury room. I respectfully charge you upon this subject of keeping the secrets of counsel, of yourselves, of the State of Florida, and of your fellows. * * *

Follow the oath that you have taken, observe every word of that during your deliberation, and then it will follow as surely as day the night that your actions will be right.

In voting upon the question whether you will or whether you will not find a true bill, at least twelve of your number must vote in the affirmative. Any less number than twelve voting in the affirmative, you would return a "no bill."

The grand jury went immediately into session. How long that body will remain in their deliberation is not known.

Bought Her Own Gown.

They tell a story of an unfortunate Parisian society woman who, being terribly pushed for a gown to wear at a great occasion, sold seven gowns for the price of one to Mme. X. Among these gowns was one hardly rumpled and which, though very magnificent, had evidently been worn at most only once. This dress Mme. X. sold as a model to Mme. Y., who was the society woman's dressmaker and who had been obdurate about making another thing for the poor little woman without cash down. When this "model" came in she saw a chance for big return of money, so she compromised with her customer and agreed to let her have a new dress, just imported, for a very low figure. Whereat the poor little woman paid all the money she had received for all her dresses and out Mme. Y. brought the model. The poor woman talked herself blue in the face, but she could not say anything to protect herself without betraying her dealing with Mme. X., so, poor thing, she danced in her old frock after all, having swapped all her other gowns for the privilege.

MALARIA AN INSIDIOUS FOE TO HEALTH

Malaria is an atmospheric poison which we unconsciously breathe into our lungs through the impure air arising from low, marshy places, stagnant ponds, damp cellars, sewer pipes, improperly ventilated houses, decaying vegetable matter, etc. Day after day these germs and poisons are taken into the lungs, and as the blood passes through them it becomes infected with the poison and in its circulation distributes the microbes of disease to all parts of the body. Malaria is a very insidious disease; it gives no warning of its coming until the circulation is filled with the poison and this foe to health has the system at its mercy. The blood becomes polluted, thin and weak and its slow, irregular circulation fails to properly nourish and strengthen the body. Then the entire system is attacked, and if the germs and poisons of Malaria are allowed to remain the strongest constitution will break down. No one can feel well when the system is in a malarial condition; the vitality is weak, the appetite poor, digestion deranged, the complexion grows sallow and the entire body feels the effects of the poison. Malaria must be removed from the system through the circulation and the only medicine that can accomplish this is S. S. S. It not only cleanses the blood of all unhealthy morbid matter, but destroys the germs, cures Malaria and restores this vital fluid to a strong, healthy condition. S. S. S. is made of roots, herbs and barks combining purifying and tonic properties which keep the blood free of all poisons and the system in perfect condition. While destroying the germs of Malaria and building up the weak, polluted blood S. S. S. gives tone and vigor to the entire system. Book on the blood and any medical advice without charge.

Jessie Howard Slayed Belle Hudson With a Shot Gun.

QUARRELED OVER THE DOG

Howard Woman Went and Secured a Gun, Returned, and Emptied the Contents in the Body of Belle Hudson—Held Without Bail.

Jessie Howard, a colored woman about thirty-five years of age, is in trouble, and it all occurred about a fice dog. She is in serious trouble, too, because she is now behind the bars of the Alachua county jail, charged with the murder of Belle Hudson, another colored woman, near the Yearwood mill, Melrose, on Friday of the past week.

From the evidence in the preliminary trial, which was held in Justice Lumpkin's court at Orange Heights on Tuesday, it appears that the two women became involved in a row over the fact that a fice dog belonging to the Hudson woman had a habit of loafing in the yard of Jessie Howard. Words came to blows, when the Howard woman went home, secured a shotgun and returned. Finding the Hudson woman in the yard, she proceeded to empty the charge of both barrels into her, death resulting instantly.

The Howard woman was arrested and arraigned before Justice Lumpkin, when she was bound over to the next session of the circuit court without bail. She was brought to this city Wednesday, and will remain in prison until the fall term of the circuit court.

THE SEWERAGE WORK.

Nice Progress is Being Made, Although Labor Is Very Scarce.

Contractor F. H. Beeman, who, with a competent force of superintendents and foremen, is working on the sewerage system for the city of Gainesville, reports that, notwithstanding that labor is a scarce proposition, he has quite a force at work, and very good progress is being made.

Mr. Beeman states that he expected to complete the work in about nine months from the time of breaking the first dirt, but owing to his inability to secure labor, the delay in freights, and other things, it may be possible that a year will be required.

Mr. Beeman and his interesting family are located on Alachua avenue, East Gainesville, and have made many friends since coming here. They expect to remain until the sewerage system is completed.

UNFAIR COMPETITION.

A Massachusetts court recently decided that the effort of a manufacturing concern to force a retailer to handle its goods exclusively, or pay a higher price for his goods, was illegal, because it put such dealer to an unfair disadvantage in competition. Unfair competition is a relation which German law and German business practice have defined much more clearly than is the case in the United States. One form of unfair competition as there recognized, says The Wall Street Journal, is that of a traveling merchant bringing a considerable quantity of dry goods, for instance, into a given market, and selling it out at auction prices much below the cost of production, or customary prices. This is regarded as an injustice to the local merchants who are taxpayers and suffer on account of such special sales.

In such rivalry as cut throat competition, the question is only one of the enduring capacity of the competitors. Whether we consider industrial competition or commercial competition, the result is the same. In commercial competition it is only necessary to force a competitor to sell at a disadvantage which ultimately results in ruin. This is practically the way in which some of the large corporations have driven smaller competitors out of the field.

Another form of unfair competition is that which is being exposed by the Interstate Commerce Commission in its inquiries at Philadelphia. There the struggle was for coal cars to ship the product of the mines. Presumably all mining companies were on the same footing in competitive markets, so far as facilities for reaching the markets are concerned. But as a matter of fact, certain favored distributors could obtain cars, while their weaker competitors were unable to obtain adequate facilities. Such discrimination continued long enough would drive the unfavored men out of the business for want of cars to ship their product.

Very properly the public authorities have stepped in to ascertain exactly under what rules the game has been played.

IMPROVING OUR HORSE.

The United States is a country which possesses some of the best and some of the worst horses in the world. Wealth imports and breeds fine specimens, but as a general thing the horses of any particular country district, if left to themselves, tend to "run down"—to deteriorate through the inability or unwillingness of the farmers to provide proper sires for this stock. Such sires are expensive and the need of them often comes at a season when the farmer is out of funds and unable to tax himself for the purpose of improving his horseflesh. Under the circumstances, he buys what he can get for little or nothing. The result is degeneration.

This process has wrecked the beginning of several promising indigenous strains in this country. It resulted in horse flesh anarchy on the hills of Vermont and spoiled the Morgan house.

Abroad, governments attend with success to the matters of horse breeding. Government stallions are at the service of the breeders and farmers of France. Nothing of that sort would be possible in this country. But the place of government has been taken right here, in a public-spirited manner, by the breeding bureau of the New York Jockey Club, which has placed at the disposal of the farmers of that State, free of charge for breeding purposes, four splendid thoroughbred horses.

Owing to the failure of many crops upon which they were depending, it is learned that the farmers throughout the county who did not originally intend to plant cotton, owing to the prevailing prices for the past two or three years, have decided to lay a crop of this staple, and are now putting the seed in the ground. This is especially true in what is known as the Gainesville district, where the acreage promises to be extensive. The acreage will be larger throughout the county than was anticipated a month ago. An authority stated to The Sun that some cotton of last year's crop in the interior is still being held. A small amount has been sold within the past ten days, however, the price ranging from sixteen to nineteen cents. About 150 bales of the crop of last year are being held.

BAIRD HARDWARE COMPANY.

A Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherrybark, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, bronchial and laryngeal troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures. Send for and read the little book of extracts, treating of the properties and uses of the several medicinal roots that enter into Dr. Pierce's Golden Medical Discovery and learn *why* this medicine has such a wide range of application in the cure of diseases. It is sent *free*. Address Dr. R. V. Pierce, Buffalo, N. Y. The "Discovery" contains no alcohol or harmful, habit-forming drug. Ingredients all printed on each bottle wrapper in plain English.

Sick people, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy.

Sciatica Cured After Twenty Years of Torture.

For more than twenty years Mr. J. B. Massey of 3322 Clinton St., Minneapolis, Minn., was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of that liniment relieved the pain and made sleep and rest possible, and less than one bottle has effected a permanent cure. If troubled with sciatica or rheumatism why not try a 25-cent bottle of Pain Balm and see for yourself how quickly it relieves the pain. For sale by all druggists.

Reynolds, "in connection with their investigation of the meat trust, the stock yards and the meat packing houses of Chicago and other places and all data, exhibits and correspondence in any way relating to the same."

It Is Dangerous to Neglect a Cold.

How often do we hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cure of this most common ailment. It always cures and is pleasant to take. For sale by all druggists.

Must Obtain Duplicate Certificates.

San Francisco, May 30.—Chinese residents who were burned out during the recent fire will sustain a still further loss, it is said, that may reach as high as $50,000 or $60,000. They must obtain from the government at Washington duplicate certificates of legal residence in the United States. About 6,000 of the certificates were destroyed, according to an estimates made by officials of the Chinese bureau. This loss falls on the Chinese alone, as upon them rests the necessity, when occasion may arise, of obtaining others. According to officials the Chinese who have lost their certificates are liable to deportation at any time.

Not if as Rich as Rockefeller.

If you had all the wealth of Rockefeller, the Standard Oil magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The eminent physician cannot prescribe a bottle preparation for colic and diarrhoea, both for children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails, and when reduced with water and sweetened, is pleasant to take. Every family should be supplied with it. Sold by all druggists.

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted Hamburg skin specialist, declares that dandruff is the burrowed-in gutlide of the scalp caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people all around that it is the most wonderful hair preparation of the day or age.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

YOUNG WIDOW ASSAULTED.

Was Overpowered and Chloroformed by Two Young Men.

New York, May 30.—While waiting for a train in the Erie Railroad station, at Passaic, N. J., Mrs. Cora Van Clarcain, a handsome young widow living in Passaic street, Ridgewood, was overpowered by two men, pushed into a cab, chloroformed, driven to a secluded vacant lot and brutally abused. Subsequently arrested, the men gave their names as Randolph Lowe and Thomas Lyons, both 21 years old, of Nos. 97 and 99 Sherman street, Passaic, respectively.

In spite of her serious condition as a result of the attack, Mrs. Van Blarcain attempted to elude the police and thus spare herself and family, which is well known in Ridgewood, from notoriety. The police, however, sent here to the medical ward of the jail at Paterson, where she is being held as a witness against the men whom she accuses. They, held without bail, have been committed to the Paterson jail. They refuse to discuss the case.

New York, May 30.—A cable dispatch to a morning paper from Rio Janeiro says the strike at San Pablo is taking an ugly turn and begins to extend itself to Rio Janeiro and other towns. UNION MEMORIAL DAY.

Exercises at Cemetery, With Impressive Address by Judge Carter.

The memorial exercises of the 30th, in accordance with the plans provided by Lew Wallace Post, G. A. R., were carried out in excellent manner. The post was joined, by invitation, by members of Stonewall Camp, U. C. V., and members of the Daughters of the Confederacy, several members of each society being present.

Carriages were in waiting at the band stand, and left at 9 o'clock for the cemetery, where the services were conducted.

The services were brief, but very impressive. They opened with a prayer by Dr. Bullock, acting chaplain of Lew Wallace Post, which was followed by the singing of "America." Judge Syd L. Carter delivered an eloquent oration approprate to the accasion, after which the graves of both Union and Confederate soldiers were decorated with fragrant flowers.

Wait for Hunger

Good Advice From J. W. McCollum & Co. as to How to Create an Appetite.

Any physician will tell you that it is unwise to eat unless one is really hungry. It is far better to miss a meal than to eat without appetite.

But do not take a tonic, stimulant or appetizer to make you hungry. J. W. McCollum & Co. say that the best way to create an appetite is to restore the digestion to health by the use of Mi-o-na stomach tablets, a reliable remedy that they are handling with the best of satisfaction.

When Mi-o-na is used the irritation and inflammation of the stomach coating will be smoothed, the gastric follicles will be strengthened so that they will pour out the natural digestive fluids with regularity, and the food you eat will be perfectly digested without distress.

A large box of Mi-o-na stomach tablets is sold for 50 cents by J. W. McCollum & Co., and it is so successful and reliable in curing indigestion and other stomach troubles, with the exception of cancer of the stomach, that they sell it under a guarantee that the money will be refunded unless it does all that is claimed for it.
